

## Specifications

### Specifications - Controller

Input Voltage .....	18-30 VDC (24V standard)
Operating Temperature .....	-20°C to +60°C
Max Current Consumption .....	Less than 50 mA
Body Material.....	Abs Plastic
Protection Class .....	IP54
Relay Output .....	1
Response Time .....	less than 500mS

### Specifications – Photoelectric Beam

Detection Range.....	2meters
Number of receiver .....	1*/2**
Number of transmitter .....	1*/2**
Cable Length .....	5 m
Protection Class .....	IP66
